Education

Bachelor of Science - Manufacturing and Supply Chain Management **Graduation: June 2028**
Minor - Business Analytics
Western Washington University
Planned Coursework through June 2027:

- SAP ERP Systems
- Logistics Modeling & Analysis
- Sustainability in Supply Chain
- Operations Management
- Supply Chain Analytics
- Procurement & SC Strategy
- AI Applications in Business
- Project Management
- Lean Process Improvement

Sustainable Supply Chain Benchmarking Analysis (Operations Management)
Benchmarked Alaska and Delta's supply chain resilience using 10-K and ESG data. Evaluated SAF procurement and fleet modernization, identifying $100M in cost savings from efficiency initiatives and over $17M worth of fuel saved via AI-driven route optimization. Concluded that sustainability integration is a primary driver for operational efficiency and competitive advantage.

Professional Experience

ArchLynk, Remote **August 2026 - Present**
Supply Chain Consulting Intern

- Developing and presenting business cases for prospective clients to senior leadership, including one that mapped 21 capabilities and defined 6 value levers across company-wide operations and logistics.
- Completing certification coursework in Cloud ERP, S/4HANA business processes, and project management while joining live consulting sessions on client problem-solving.
- Working directly with global trade, business planning, warehousing, and transportation consultants on client work, guided by a self-directed learning plan built with senior leadership.

ERP Internship Framework Project (Self-Directed Initiative)
Recognized the opportunity to build a structured internship program where none existed and independently designed a two-track framework (3- and 6-month paths) with certification tracking, developing a curriculum that represents $3,638 in training value along a fully mapped specialization path. Applied AI to accelerate curriculum design and proposal development, tied the initiative to Supply Chain Management, ArchLynk's top-rated SAP competency area, and secured executive backing pending formal review.

Western Washington University Viking Union, Bellingham, WA **June 2025 - Present**
Building Manager

- Directing on-shift operations across a 145,000 sq ft facility as the primary point of contact for a cross-functional team of 15+ personnel, managing real-time reporting and risk escalation to maintain 24/7 operational readiness.
- Achieving 100% on-time execution for room configurations and equipment staging, accountable for the logistical success of 50+ weekly events by translating complex schedules into resource plans.

Walla Walla Steak Company, Woodinville, WA **July 2022 - September 2024**
Front-of-House Operations Lead (Event Services / Expeditor / Trainer)

- Led opening-team training for 40+ new hires, establishing Standard Operating Procedures (SOPs) to guarantee operational readiness for the location launch.
- Coordinated event logistics and staffing for private functions of 100+ guests, overseeing all phases from initial setup to organized storage to ensure zero-disruption service execution.
- Streamlined multi-floor service flow as the primary kitchen-to-floor expeditor, managing order throughput for 350+ nightly guests while maintaining a 99% accuracy rate.

Activities & Clubs

- VP of Financial Operations, ASCM WWU Chapter **2024 - Present**
- Student Mentor under the College of Business and Economics Mentorship Program **2025 - Present**
